Massive reinforcement Communist forces ATTACK? TWO-PRONGED

Tokyo, August 5.

North Korean forces today punched across the Naktong River, a new U.S. "line of no retreat." The Eighth Army said in a communique that the crossing was made East and South East of Sangju. Sangju is near the North West corner of the American defence box. There was no word on the size of the force.

The crossing posed a third major threat to the Allied defence forces. The Korean Reds were reported to have three divisions massed for a strike across the Naktong near Waegwan, South of Sangju and only 15 miles from the U.S. Central communications centre of Taegu. By boat the trip from Bermuda to New York takes two days and these frills and furbelows, hang has taken the town by storm. my wet swim-sult at 5 pan., walked aboard a plane at 6.30, and sat down to a late dinner at New York's famous Stork Club at 11 pan. . . . having taken time to park my luggage, and change my dress first.

In New York you don't so much do things as have them happen to you. My first morning call was at the hairdresser, where your assist" ant is known as an "operator." The term is very apt.

"It's got a bit long and unruly being by the sea . . . " I murmured. " It sure has," agreed the firl crisply, and whipped a neat array of surgical-looking instrunients out of a drawer,

At this moment the manicurist picked up my hand and said; "This brown-looking varnish you have on is simply terrible." "Oh," I sold weakly, "what

do you recommend?" She didn't waste time recommending anything. What needed, she told me, was a true red; and proceeded to give me what she figured I needed without further frivolous comment. Possibly I could have fought back, but I was enjoying being the victim of such powers of decision.

SALMON FEEL SAFER ON SOVIET SIDE

Nearly two-thirds of Russia's 120-mile common frontier with Norway consists of the Pasvik River, famous for its salmon, But, writes Moray Williams, just returned to Oslo after a trip to the Far North, the Norwegians may fish only on their own side of the river.

Should an ardent angler be pulled by a struggling salmon beyond the half-way line, warning shots are fired by Soviet frontier guards hidden rather uncomfortably in observation posts up in the pine trees.

All the same, the 10,000 inhabltants of South Varanger (the district close to the frontier) manage to catch large quantities of sal-

FOR COMMUNISTS

Since the outbreak of the Korean war political observers in Rome have expected the Italian Government to take security measures against the Communist Party in anticipation of a wave of rioting and strikes. But according to Robert Shearer the Communists there are taking a different line. Though their newspapers scream

about American "imperialism" in the Far East, they are urging their compatriots and others to keep as far away from the conflict as possible. Their leaders are even acquir-

What You Should Know About Your English

ARE you content with the way you speak and write? Are you sure that you are not making mistakes that cause people to underrate you?

Never has the importance of good English been more widely recognised than to-day. If you can express yourself persua-'sively and forcefully, you have an immense advantage in your business or professional work as well as in social life.

Does your English enable you to appear at your best on all occasions? Can you express your ideas fluently - and correctly? Are you sure of your pronunciation and spelling?

Why You Are Judged by the Way You Speak and Write

Your English reveals you. You are judged by the way you express yourself.

Is it not a fact that you judge others by their speech and writing? Just as you are favourably impressed by the man who has a ready command of correct, polished and effective speech, so you receive an unflattering impression of the man who fumbles for words, and is obviously uneasy about his English.

No matter what ability you may possess in other directions, you are gravely handicapped if your English is defective. Every day - every minute - you run the risk of being unfavourably assessed.

How You Can IMPROVE Your ENGLISH in a Few Hours

Many ambitious people are worried because they cannot depend upon their English not "letting them down."

It was to meet their need that the Regent Institute planned the new worldfamous Course in Effective English and Personal Efficiency — simply written postal lessons that give you the essentials quickly, concisely and interestingly, so that the improvement of your English begins within a few hours.

You are shown how to get a bigger. vocabulary, how to express your ideas neatly and attractively, how to write good letters and how to avoid errors in speech; and writing., Whatever the standard of your English you cannot fail to gain benefit from these lessons and from the clear, sympathetic guidance of your instructor.

! Moreover, the lessons are supplemented by a series of printed lectures on personal efficiency that are full of wise and practical suggestion. To quote the phrase that often recurs in students' letters, these stimulating. lectures will give "a new outlook on life."

The Effective English Course will equip you with the power of the right word and

show you how to make the most of your personality and of your opportunities in life.

Why So Many Students Recommend the Effective English Course

Many students say that the moderate fee charged for the Course is the best invest--ment-they-have-ever-made---It-is-not-sur---prising therefore that numérous people enrol on the recommendation of Regent pupils.

👵 You will enjoy taking this zamous Course. You will find that the lessons are so fascinatingly written that the study; becomes as engrossing as a recreation. Best of all you will have the confidence that springs from the knowledge that you are making real progress with each lesson.

How You Can Study this Course in the Odd Minutes of the Day

Write now for a copy of "Word Mastery" which gives full details of the Effective English Course. It shows that the easy-tounderstand, time-saving lessons can be studied in the odd minutes of the day - that you learn just the things you need to know - that you are not required to memorise tedious rules - that you receive unstinted help, throughout. You will discover that this adaptable Course fits your needs so exactly that it might have been specially planned for you.

Decide at once that you will rid yourself of the handicap of poor English. You can do so without drudgery and without, costly outlay.

Waiting for the dwarf

Occupation intelligence of placable opposition to the re- young Kamikaze pilots are known ficers and Japanese Communists alike are eagerly awaiting their return from Siberia of a Japanese dwarf with a huge head and a cold

His name is Katsumi Asahara. He is 32. As a Japanese army sergeant in the Siberian prisoncamps, he was managing editor of the Soviet propaganda daily, "Nippon Shimbun."

It is suspected that he is being groomed as a new leader of the ers' paper. The Soviet feels that Japanese Communist Party, split the Japanese Communist Party delayed return, will openly join asunder by recent bitter Comin- needs martyrs-all the better, of form criticism of Japanese party course, if martyred by the it "officially" and conduct his strategy and tactics.

for Japan. Asahara-san was a young Party supporter before the war, when he worked in the laboratories of a Tokyo concern known as the Scientific Enterprise Company. He served two brief prison terms for participation in Red agitation. He has a reputation as an economist as well as a writer and organiser. He had alreadyy been marked down as a coming strong man in the Party.

It is presumed that, on his return, the dwarf will join the Shings faction of the sundered local Party—that is, if he officially enrols in the Party Instead of working outside. Communist activity in Fuchu Prison, and who likes to use his fists as well as his tongue in ideological debate, has challenged the Tokuda-Nosaka Centrist faction on the Tokyo Politburo.

Persuasive Communism

Sanzo Nosaka, Moscow-trained intimate of Mao Tse-tung and indoctrinator in long exile of Japanese war-prisoners in Yenan, sought to peddle a persunsive form of Japanese Communism on

the instalment plan. He induced the Party's secretary-general, violent, leatherlunged Kyulchi Tokuda, another "Fuchu old boy" of 18 years' enrolment, to drop the unpopular "abolish the Emperor" policy line. Nosaka-san wanted to make the Communist Party "an organisation beloved by the people." It was he who said: "The Japanese first must be taught democracy before they will be ready for Communism. We will move

slowly." No one doubts that the longawaited pigmy figure with the giant's head will carry latest instructions from Moscow on the new Party policy of tougher strikes, violence, sabotage, and anti-American agitation.

Already there are unmistakable signs of the development of this new policy, with the oncerestrained Nosaka-san now boldly demanding withdrawal of all

They have found it easy to reconcile the bitterness of defeat and surrender with expedient acceptance of Communism, which promises them, after all, what they sought before Pearl Harbour, a police state, founded on a variety of national Socialism, which they believe they can adapt for Japanese re-ascendancy in the Far East.

Here, people are not worried about atomic attacks.

"If it does come to a big war, then they'll go for the big cities and the plants first." runs the line of thought.

But in downtown hotels and along suburban terraces Southerners are following the communiques and front line reports with avid interest. and are blaming Defence Secretary Johnson for America's virtually complete unpreparedness.

And in between times they are becoming armchar strategists and are pronouncing heavy verdicts on the performances of their Allies.

..While __countries __ which _ have offered "moral support" are being regaled with perhaps more than their fair share of contempt and sneering, Britain and the Commonwealth are being cheered and praised to the skies.

All over North Carolina I have heard people say that when times are bad, with the troops losing ground, and so on, that is the time when one's real friends rush to the rescue.

We are the real friends, and it seems that all the post-war misunderstandings, dislikes and .disagreements between Britain and House on the Korean crisis. They the Americans went up in the were among advisers who oppossmoke of HMS Jamaica's first ed use of the atomic bomb in Korean barrage.

Salesmen were telling custo-Defence Secretary Louis Johnson mers they would "see their good to call such reservists as "might customers were all right," probe necessary in view of the vided certain handouts were assured.

Cost to rearm

In Washington bread concerns were accused of unnecessary price increase, and President Truman, In his historic message, had to inform Congress that it would cost the American taxpayer 10 per cent more to rearm today than it would have done before the Josef Stalla III tanks rumbled South across the 38th Parallel.

With the return of the World War Two skirt-length, and the revival of World. War Two songs like "When you wish upon a and "You belong to my heart," the return to World War Two hoarding and profiteering seemed to be on the way.

In one counter-move the President ightened regulations for housing credit, warned he might impose price controls and rationing and establish priorities of strategic raw materials like steel. But America's main emphasis was on what General MacArthur

called "my manpower build up." In the terminology and the daily lives of a lot of people in Charlotte and many thousands of other places far from Washington and Korea, this meant the postponement of the future while the young men left home.

FUNDS DEMANDED FOR U.S. NAVY

. Washington, August 4. President Truman asked Congress today for an extra \$050,-000,000 for naval plane construc-

tion and procurement, In a message to Mr. Sam Rayburn, Speaker, of the House of Representatives. Mr. Truman said that the funds were to be an addition to the \$10,500,000,000 emergency defence appropriation, which he requested last month after the outbreak of the Korean

Congressional sources said that the new funds would speed up the Navy's plane programme in line with expanded production intended to bring about a total

air force of 69 groups. If approved, the extra money would give the Navy \$1,596,269,-000 for its plane programme.-Reuter.

W. Indies score

London, August 4. The West Indies beat Surrey by an innings and 60 runs today despite an energetic innings by the left-hander, Laurie Fishlock, who missed his second century against the tourists by three runs.

Needing 244 rung to avoid an luningo defont, Survey, 20 runs for two wickets overnight, were all out in their second innings shortly after lunch today for 204 runs. Surrey had made 161 runs in their first innings to which the West Indies had replied with 434

The match winners were again the spinners, Alfred Valentine and Sonny Ramadhin. Ramadhin dismissed Constable with the necond ball he sent down in the game after being kept off the field for most of the first two days because of a chill.

Determined stand

Constable had partnered Fish-lock in a determined third wicket stand of 62, but after he left the seven remaining wickets fell for 120 Tuns.

Fishlock stayed three hours and 25 minutes for his 97 runswhich included nine fours. Valentine took five wickets for 50 rune and Ramadhin three wickets for 59 runs.

Of the 120 runs, Fishlock and Jim Laker had added 52 runs together for the seventh wicket. In first and seventh out, Fishlock batted very well though he did not always appear too comfortable against the clow howlers. In his stay of three hours and 25 minutes he offered only one chance, Rac, at long-on, dropping him off Valentine when 86 runs. Under the influence of more nunchine, the pitch phyed faster

Indies open against Glamorgan

Swansea, August 5, The West Indies won the toss and batted first here today in their match against-Glamorgan and at lunch were 115 runs for three.

Condition were fine and the wicket looked full of runs. Marshall and Rae opened the batting. Werrell, Walcott and Valentina were rested, but Ramadhin was included after being considered doubtfut.

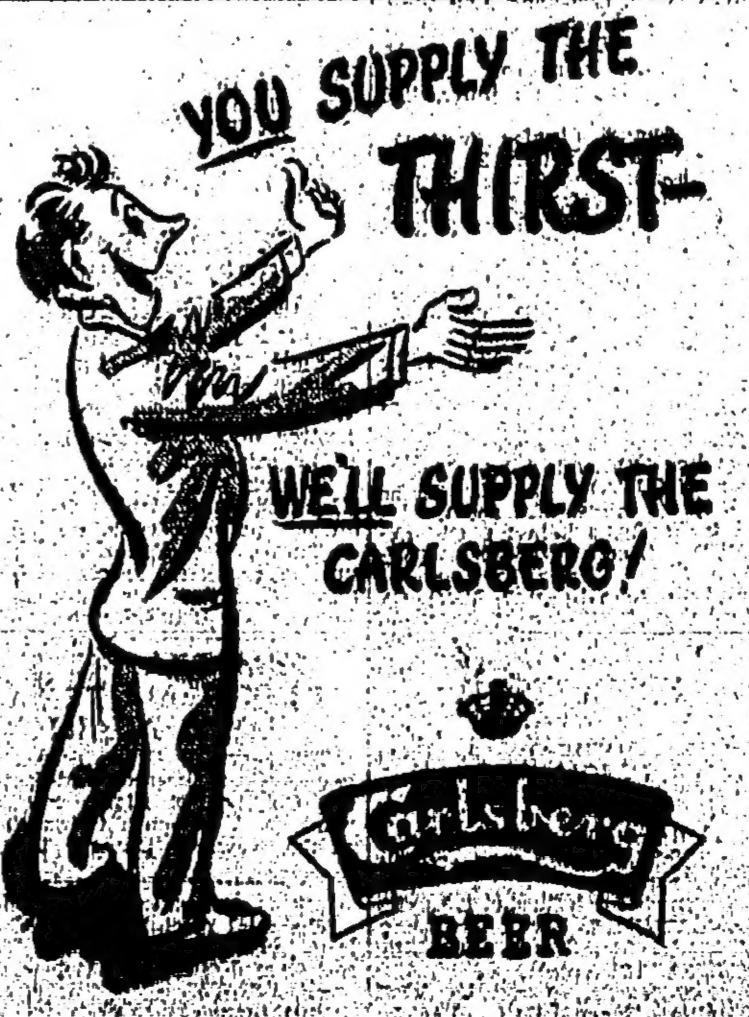

Rao needed only nine runs for his thousand. Quickly reaching his target, he celebrated with a beautiful four through the covers. Marshall was frequently beaten by Wooller, who bowled slower than usual but with added pull, varying his flight intelligently. When 51 had been put on in 75 minutes, he got Rae, decelving him with a change of pace. Trestrall came in and immediately cut Watkins for three consecutive fours.
